Silvia Fioroni

Nationality: Italian   **Date of birth:** 24/12/1999   📞 **Phone number:** (+39) 3791112027

✉ **Email address:** s.fioroni99@gmail.com

📍 **Home:** Via Alfonso Artiaco, 80078 Pozzuoli (Italy)

SKILLS

Certification in Html & Css (2023); Certification in Javascript (2023)

React and Vite React

Google Cybersecurity Professional Certificate (2023)

Java

Sql

Basic knowledge of Next.Js and NodeJs

GIT, Github

BEST PROJECTS

Comfy Store:
Built a fictitious e-commerce site with React. I made use of Stiled components, React Router, an API from the online course I followed for React which contains the products exposed, and much more. I used Auth0 to create an account on the site and login, which gives access to the Checkout section to proceed with the payment (Stripe), and then it's possible to do the logout; I set up the different sections of the site, the filters for the products listed with grid and list view, different features for the products in the cart and a page for the individual products with their information. I integrated Netlify-cli.

Built my portfolio with Vite React; pages are managed with React Router. There's the possibility to change color styles, light and dark mode; changes are saved in the local storage. You can check my infos and download my CV, and fill out a form to send me a message through Formsubmit. There's the portfolio section too, updated with my best projects.

On my Github I have the repositories of my projects and the link for the live-site.
